

Little Foresters Crèche Mission Statement

Forest Children's Centre is an Early Years provider, partner and employer of choice. A centre of excellence for the Tredegar Park ward, providing holistic, co-ordinated, innovative services to empower families and improve life chances.

We are partners working seamlessly to provide a gateway for enhanced outcomes and opportunities for children and families through a high quality friendly, inclusive environment.

Early years services within the Crèche are developed to provide free high quality care to children. This enables parents to undertake courses, and family supported activities within the centre.

Parents are also able to use the crèche if they are not attending a course for a fee of £4.00 for a 2.5 hour session.

During non term time a 4 hour session is offered for £5.00

Children are respected as individuals, with individual needs being catered for, and the wishes of parents being taken into account in the delivery of our services.

Each child will receive quality care and education which is adapted to meet their individual needs. We aim to ensure that each child receives the best possible start in life.
