

## Little Foresters Crèche Recycling Policy

Forest Children's Centre Crèche strives to reduce their environmental impact by reducing, reusing, recycling and buying recycled products where ever possible. This does not include sanitary disposables.

Our job is to keep our little guests happy, safe and content. We take this responsibility seriously and by "thinking green" we feel that our little guests will remain happy, safe and content.

Whilst we at Forest Children's Centre are keen to recycle, we do ensure that any waste food is only recycled at the end of session time and ask all staff, including Cafe staff to abide by this rule.
